After repeated examination of the ground & carefull consideration (due allowance being made for the difference in value of different portions caused either by quality of the land or by remoteness from or nearness to the business portions of the Village) I suggest the following as an equitable division of the Estate lands among the six heirs of said Father: There are made four (4) grades decreasing in Value from 1st to 4th

In the 1st Grade the Sections contain from 4 to 5 acres each of excellent land for building lots.

In the 2d Grade the Sections vary in amt of land but are believed to be equal, or nearly so, in value they contain from 1 to 2 acres each. In the 3d Grade & also in the 4th the lots are inferior in Value but are selected so that good & bad shall balance each other in each share It is suggested that the heirs draw lots for these shares: that the names of those who may be allotted to the portions (as given below) drawn: that the signatures of all the heirs be attached to this paper for ratification of the action taken & that the said paper with the plat of Messrs Simons & Berger be handed to me C.
